

Individual differentiation-opening peaks and COQ8A expression
Primary display: COQ8A ≥ 3 vs 1 UMI · TSS ≥ 3 · 201 matched pairs · 4 libraries / 2 source lines

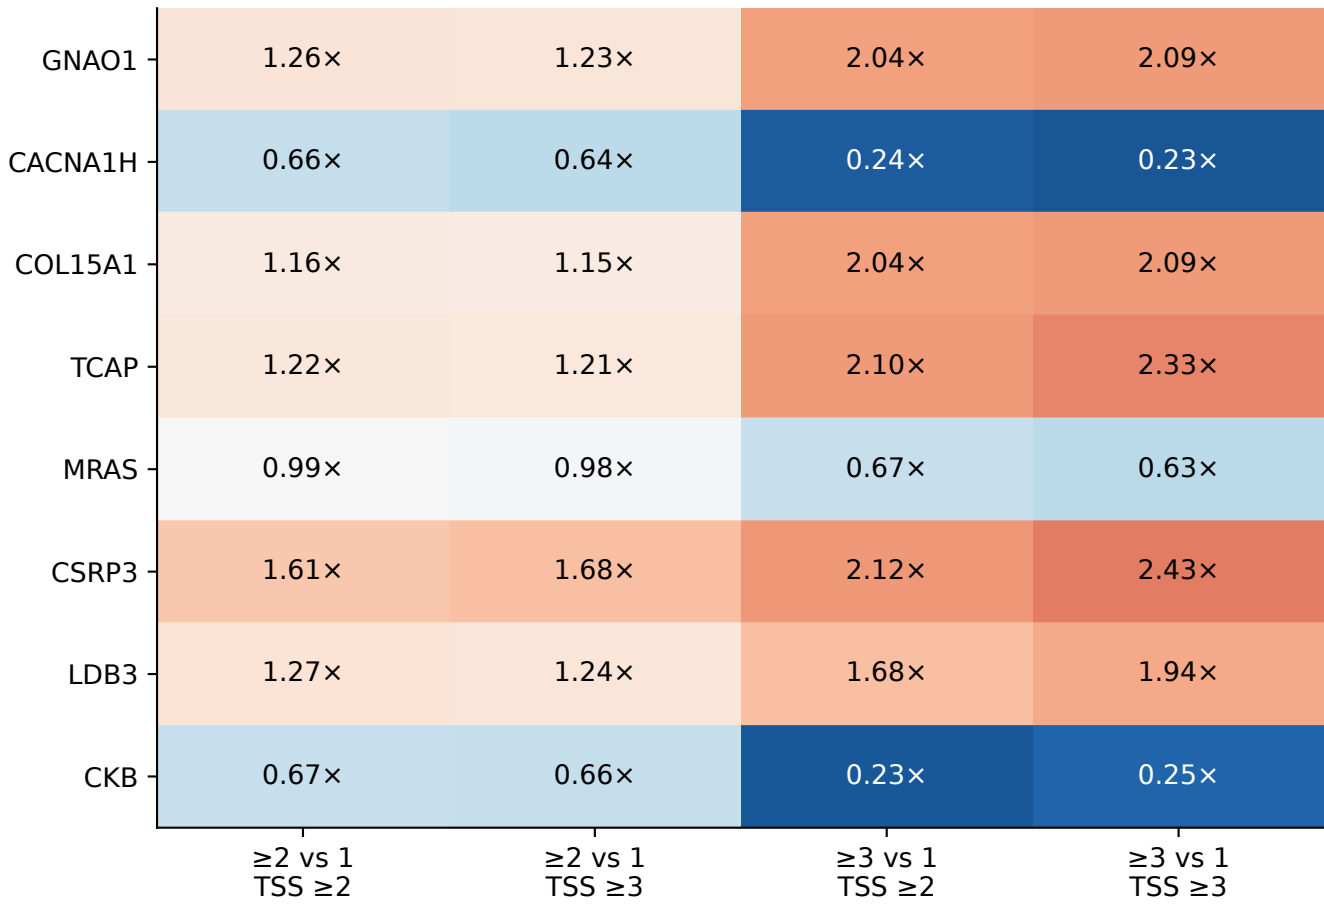

A All 229 peaks, including 191 early peaks

B Eight lowest p values, both directions retained

C Same peaks across all four settings (high/low ratio)

D Library effects (percentage-point difference)
